

- Draw dimensions of planting area. For foundation plantings, include height & width and location of windows, doors, etc. This includes how many feet from the bottom of the window to the ground.
- Show what plants you currently have (that you are planning on keeping), where they are located and how much space they take up. Also indicate any service or property lines that may be pertinent.
- What direction does the area face? How many hours of sun does the area receive? _____
- Any wind, pest (deer, rabbit, etc.) or moisture problems? _____
- Plants you would prefer to be used in the plan. _____
